

EIT Digital Management Committee

# László Gulyás

Node Director, Budapest

László Gulyás, born in 1972, was the regional lead of EIT Digital's ARISE Europe program in Central and Eastern Europe. His professional history of 20+ years has been divided in about equal parts between higher education, research and ICT business practice. His mission is to bring cutting edge scientific results to the market and vice versa.

After receiving his PhD from Loránd Eötvös University, Budapest, he worked at the same institution, at Harvard University and at the Central European University. He also held management positions at various startup and SME companies. Dr. Gulyás has authored 80+ articles and co-managed a series of successful technology projects with EU and national support.

## EIT Digital

We believe in making and shaping a competitive digital Europe that is inclusive, fair and sustainable and aim at global impact through European innovation fueled by entrepreneurial talent and digital technology.

We embody the future of innovation by mobilizing a pan-European multi-stakeholder open-innovation ecosystem of top European corporations, SMEs, startups, universities and research institutes, where students, researchers, engineers, business developers and investors address the technology, talent, skills, business and capital needs of digital entrepreneurship.

We build the next generation of digital ventures, digital products and services, and breed digital entrepreneurial talent, helping business and entrepreneurs to be at the frontier of digital innovation by providing them with technology, talent, and growth support.
