

Victor Lemmens

Node Director, Eindhoven

Victor Lemmens, born 1973 in Maastricht, the Netherlands, received a master's degree in mechanical engineering from (RWTH) Aachen Technical University in Germany and a master's degree in Business Administration of Nyenrode Business Universiteit in the Netherlands.

His expertise gathered during his academic years, shaped his career right at the intersection of technology and business value. Victor held numerous positions in technology value creation at Philips and SAP. Afterwards, Victor was shareholder and management team member at a software company, increasing organizational leverage and value creation ahead of the acquisition by Nasdaq. Subsequently, he owned a start-up that focused on consultancy automation with low code software. Next to a stint at IFS after the acquisition of a low code software provider, Victor became CEO of a VC-owned software provider in operational logistics.

Victor is a former winner of the Charlemagne Youth Prize for European collaboration, a speaker and guest lecturer on technology value creation. He is the proud father of three boys and married to Esther. His hobbies include skiing, cycling and (classic) cars. A true European citizen, Victor speaks Dutch, English, French, German and Swedish at different levels of proficiency.

EIT Digital

We believe in making and shaping a competitive digital Europe that is inclusive, fair and sustainable and aim at global impact through European innovation fueled by entrepreneurial talent and digital technology.

We embody the future of innovation by mobilizing a pan-European multi-stakeholder open-innovation ecosystem of top European corporations, SMEs, startups, universities and research institutes, where students, researchers, engineers, business developers and investors address the technology, talent, skills, business and capital needs of digital entrepreneurship.

We build the next generation of digital ventures, digital products and services, and breed digital entrepreneurial talent, helping business and entrepreneurs to be at the frontier of digital innovation by providing them with technology, talent, and growth support.
