

Morgan Gillis

Regional Node Director West

Morgan Gillis has a strong track record of delivering strategic and operational leadership to major collaborative ventures in Europe and the USA, building global ecosystems and leading young entrepreneurial enterprises in the mobile and digital arenas.

He served as Executive Vice President and Board Director of Symbian Software, a software platform company which was centrally involved in defining the smartphone category, for six years from start-up through to global leadership; Managing Director of SHL Plc, a market-leading SaaS provider listed on the London stock exchange; CEO of LiMo Foundation, a major joint venture of leading mobile carriers and technology vendors engaged in the development and commercialisation of an open platform for smart devices; and subsequently as CEO of Tizen Inc. before acting as a management consultant to start-ups and scale-ups in Silicon Valley for three years.

Morgan is also recognised as a leader with the capacity to effect industry-level influence via citation as one of the 'Forty most influential executives within the global mobile field' by telecoms.com and has extensive experience of working with government and academic bodies to shape their participation in the commercialisation of emerging technologies of major importance.

EIT Digital

We believe in making and shaping a competitive digital Europe that is inclusive, fair and sustainable and aim at global impact through European innovation fueled by entrepreneurial talent and digital technology.

We embody the future of innovation by mobilizing a pan-European multi-stakeholder open-innovation ecosystem of top European corporations, SMEs, startups, universities and research institutes, where students, researchers, engineers, business developers and investors address the technology, talent, skills, business and capital needs of digital entrepreneurship.

We build the next generation of digital ventures, digital products and services, and breed digital entrepreneurial talent, helping business and entrepreneurs to be at the frontier of digital innovation by providing them with technology, talent, and growth support.
