

# Mobility and Networking within EIT ICT Labs a Trento RISE initiative

## Call for applications 2013

**Goal** of the Trento RISE “Mobility and Networking within EIT ICT Labs” initiative is to promote the exchange of researchers between Trento and partners of the EIT ICT Labs, so as to stimulate the setup of joint collaborations and project proposals.

### **Eligible applicants:**

Trento RISE solicits applications from researchers affiliated with EIT ICT Labs. All EIT ICT Labs partners (core, affiliate, and associated) are eligible as exchange partners. An unofficial list of the current EIT ICT Labs partners is attached to this document, in Appendix 2, for the applicants’ convenience. Exchange of researchers is funded in two directions: *outgoing visits*, for researchers of Trento RISE visiting other partners, and *incoming visits*, for researchers coming to Trento from some other partner. Researchers of any seniority (including PhD students) can participate in this mobility and networking initiative.

### **Duration of the visits:**

Visits can have variable duration, depending on their goals. The typical, expected duration for senior researchers is 2-8 days; for junior researchers and PhD students 1-6 weeks.

### **Submission and notification timing:**

Submission will remain open until the end of November 2013. The Evaluation Committee will gather in the first week of each month, and will evaluate the applications received over the previous month. Notification of the outcome will be sent by the 7<sup>th</sup> day of the month following the submission.

### **Eligible costs:**

For *outgoing visits*, eligible costs reimbursed by Trento RISE include travel, accommodation, and meals. The latter are reimbursed upon presentation of the related receipts. For *incoming visits*, Trento RISE will prepay both travel and accommodation. Also, incoming visitors can freely use the Trento RISE canteen.

### **Application form:**

A template for the application is provided in Appendix 1. The application includes a short description of the collaboration project, which can be at most 3500 characters long (approximately 1 page). The application shall be sent by e-mail as a PDF file to [tonella@fbk.eu](mailto:tonella@fbk.eu) and to [quaglia@disi.unitn.it](mailto:quaglia@disi.unitn.it).

## Appendix 1: Application template

Note: when the visiting researcher is a PhD student, the proponent shall be the student's advisor.

**Proponent researcher:**  
**Affiliation of the proponent:**  
**Position of the proponent:**

**Visiting researcher** (if different from the proponent, e.g., a PhD student):  
**Position of the visiting researcher:**

**Visited researcher:**  
**Affiliation of the visited researcher:**  
**Position of the visited researcher:**

**Duration of the visit:**  
**Planned dates:**  
**Estimated budget** (split into travel, accommodation and, if applicable, meals):

**Short description of the collaboration topic** (3500 characters at most)

[If applicable, please indicate how this collaboration maps to one of the following current EIT ICT Labs action lines:

*Computing in the cloud*  
*Cyber-Physical Systems*  
*Digital Cities of the Future*  
*Networking Solutions for Future Media*  
*Health & Wellbeing*  
*Intelligent Mobility and Transportation Systems*  
*Internet Technologies and Architecture*  
*Smart Energy Systems*  
*Smart Spaces*  
*Privacy, Security & Trust in Information Society*

]

## Appendix 2: Eligible exchange partners

Below is an unofficial list of the EIT ICT Labs partners, provided for convenience of potential applicants. Applicants are invited to consult <http://www.eitictlabs.eu> to obtain official and up to date information.
