# THE CONTEST FOR EUROPEAN DEEP TECH SCALEUPS

200 scaleups from 24 countries submitted their digital technologies for the EIT Digital Challenge 2018. Most applications came from Germany, followed by UK, Austria, Italy and France.

Scaleups were applying in five key areas that are most relevant for Europe's digital transformation. More than half of the applications were in Digital Industry and Digital Infrastructure, while Digital Cities, Digital Wellbeing and Digital Finance make up the other half.

Since its first edition in 2014, the EIT Digital Challenge has attracted more than 1,800 tech companies from all 28 EU member states.
